

## Just a start (Rob Knuit)

Just a normal Sunday in the spring  
probably the last spring of your life  
these days you'r not feeling so great anymore  
cause life has overtaken you

You're only waiting, waiting to go  
it's almost over, we both know  
you're only waiting to go

Why do you have to suffer at this age  
hardly breathing but still there's sometimes a smile  
you know you're getting closer by the day  
that you will be free and away

You're only waiting, waiting to go  
it's almost over, we both know  
you're only waiting to go

You had everything in life  
sometimes easy sometimes hard  
this fight you will survive  
cause it's not the end it's just a start  
You will live on in my heart

It's sometimes easy and sometimes hard  
It's not over no it's just a start  
cause you will live on in my heart
